

WHO's Global Coordination Mechanism and its work to advance multi-sector approaches to NCDs

Commitments, progress and WHO initiatives
Multisectoral planning and action

Dr Bente Mikkelsen
Head a. i WHO GCM/ NCD

Historic crossroads: Getting to 2018

2030 Agenda for Sustainable Development

Commits governments to develop national responses:

- **Target 3.4:** By 2030, reduce by one third premature mortality from NCDs
- **Target 3.5:** Strengthen responses to reduce the harmful use of alcohol
- **Target 3.8:** Achieve universal health coverage
- **Target 3.a:** Strengthen the implementation of the WHO Framework Convention on Tobacco Control
- **Target 3.b:** Support research and development of vaccines and medicines for NCDs that primarily affect developing countries
- **Target 3.b:** Provide access to affordable essential medicines and vaccines for NCDs

Getting to 2030: Global vision

By 2030, reduce by one third premature mortality from NCDs

2030 milestone: NCD-related targets in the SDGs

2025 milestone: 9 voluntary global NCD targets

2018 milestone: Four time-bound commitments

Goals

Four time-bound commitments in the 2014 UN Outcome Document on NCDs

By 2015:
Set national NCD targets for 2025 or 2030 and monitor results

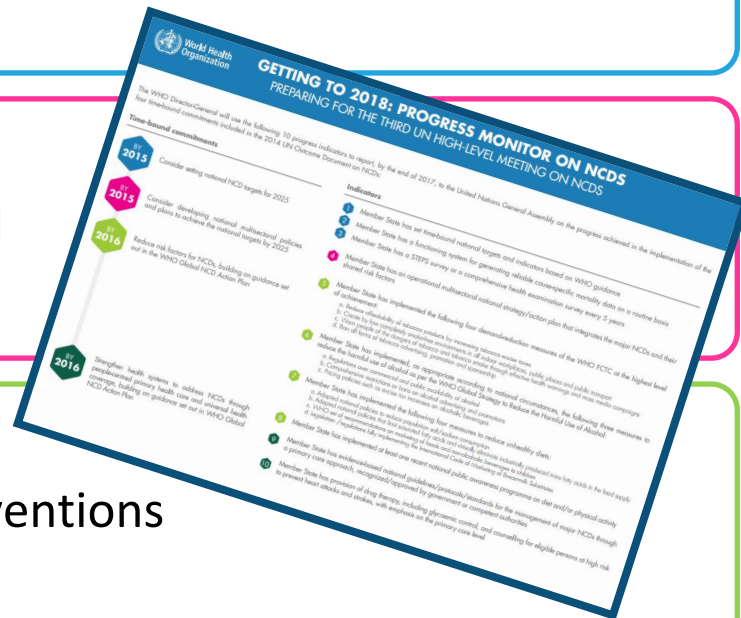

By 2015:
Develop a national multisectoral action plan

By 2016:
Implement the "best buy" interventions to reduce NCD risk factors

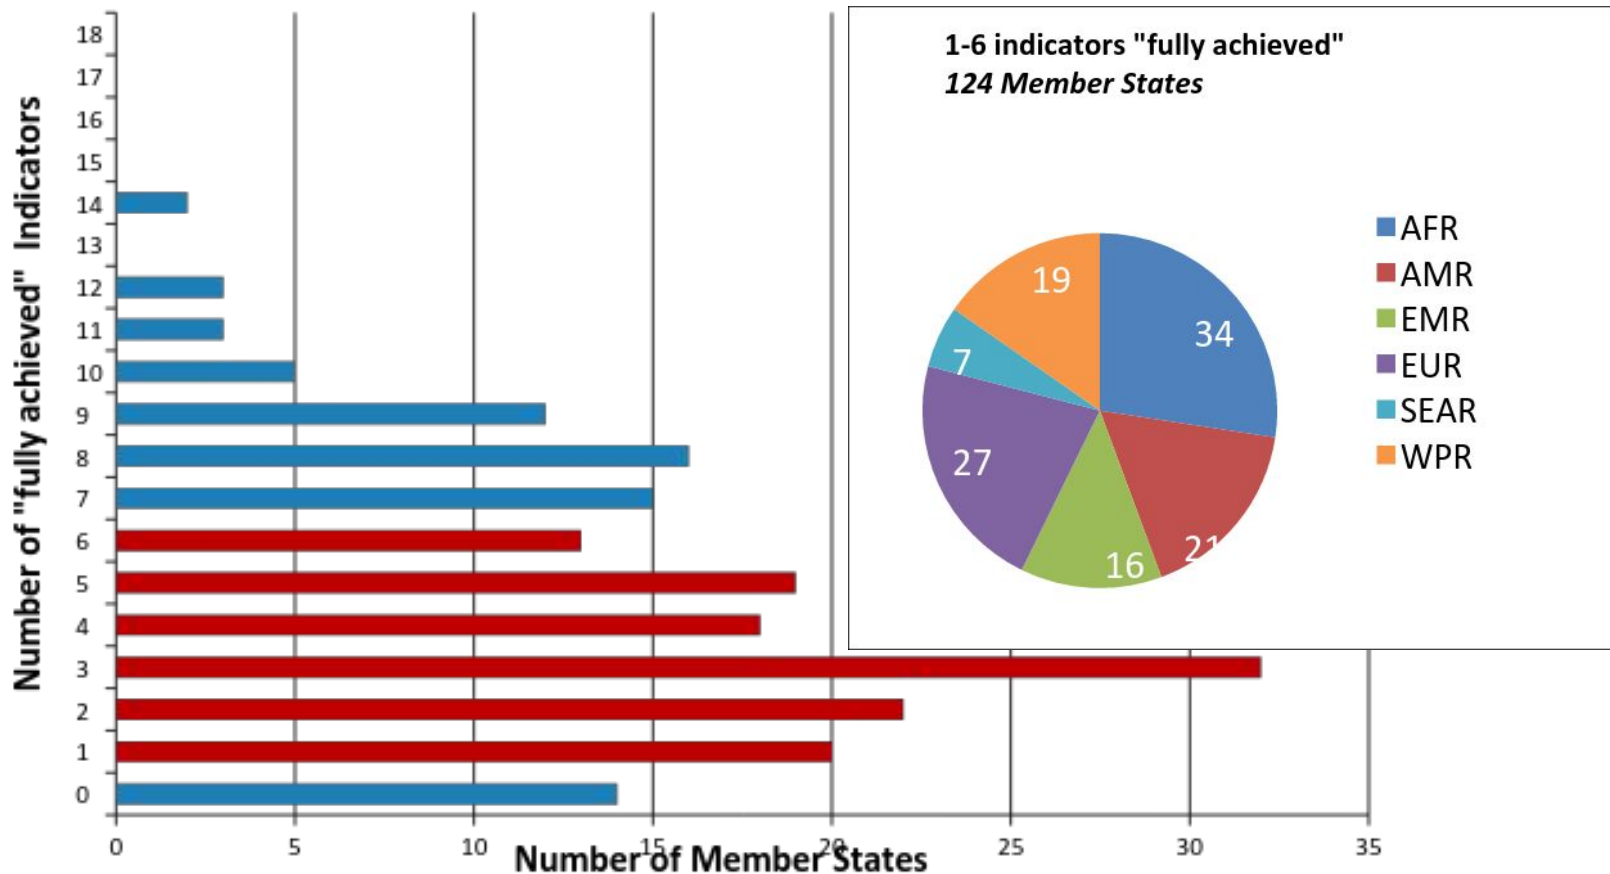

By 2016:
Implement the "best buy" interventions to strengthen health systems to address NCDs

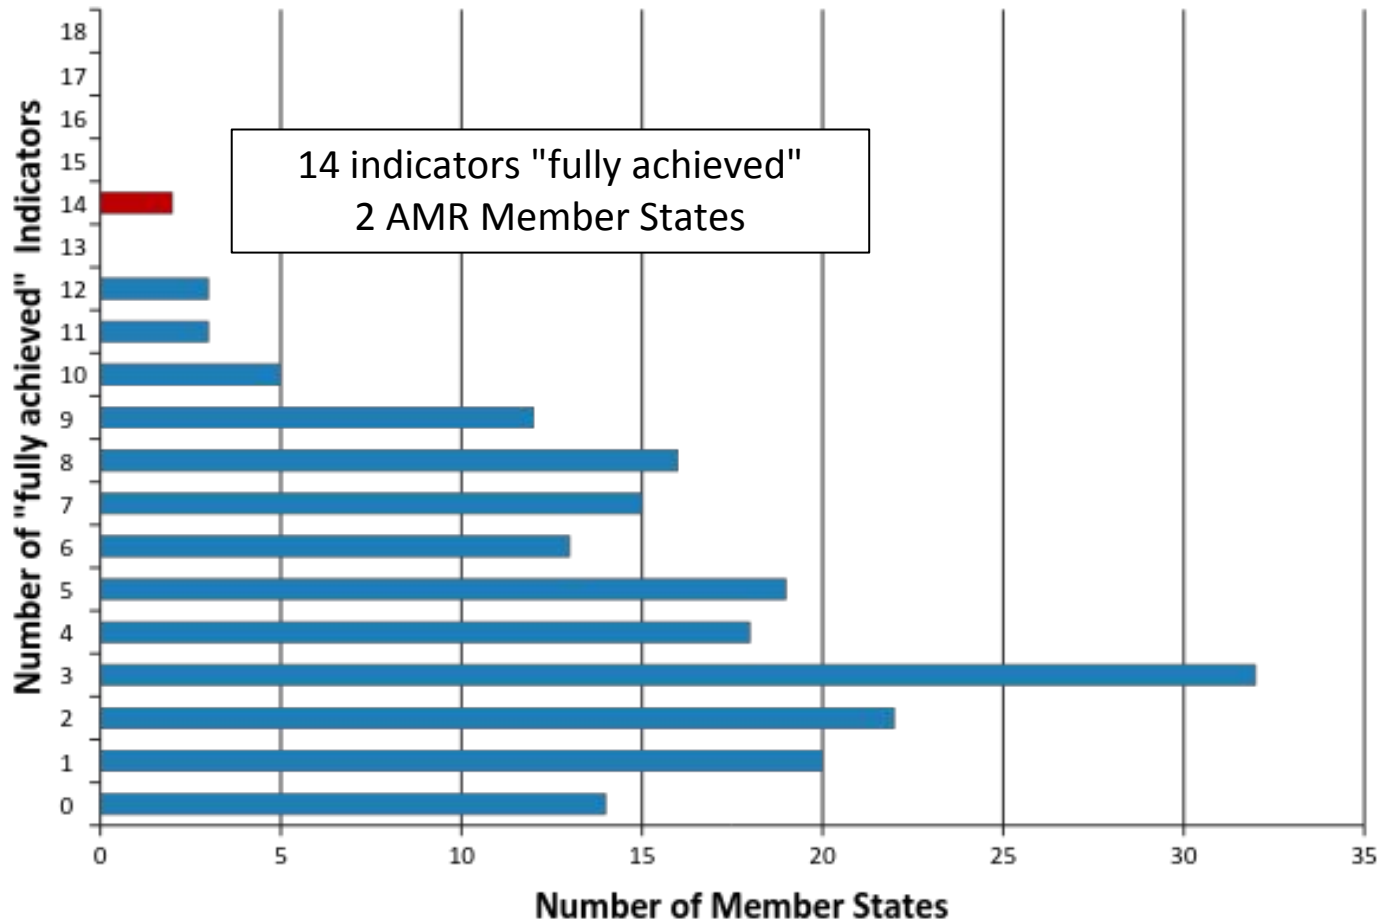

- Based on the set of 10 progress monitoring indicators published by WHO in May 2015
- Indicators show progress achieved by countries in implementing the four time-bound commitments for 2015 and 2016
- Data drawn from several sources generated by WHO and validated with supporting documentation provided by countries
- **Multisectoral plans; 64 fully met, 23 partially met, and 86 not met (target 4)**

WHO NCD Progress Monitor 2015: Progress is insufficient

"Fully achieved" Indicator Counts

WHO NCD Progress Monitor 2015: Top performers by region

Country	Number of "fully achieved" counts
African region	
▪ Madagascar	8
▪ Algeria, Kenya, Togo	5
Americas region	
▪ Brazil, Costa Rica	14
▪ Chile	12
Eastern Mediterranean region	
▪ Iran (Islamic Republic of)	12
▪ Bahrain	9

▪ UK	12
▪ Russian Federation	11
South-East Asia region	
▪ India, Nepal, Thailand	8
▪ Maldives	7
Western Pacific region	
▪ Brunei Darussalam, New Zealand	10
▪ Singapore	9

Bolder measures are needed by **governments, international partners and WHO** to ensure that the four time-bound commitments for 2015 and 2016 included in the 2014 UN Outcome Document on NCDs are fully implemented

**Including international
development cooperation**

UN Agencies
(coordinated through the UN Task Force on NCDs)

Member States and non-State actors
(coordinated through the WHO GCM/NCD)

Five key questions

How to (by 2015) establish a multisectoral strategy/plan?

How to set national targets and indicators for 2025?

How to integrate NCDs into national policies and development plans?

How to increase budgetary allocations for NCDs prevention and control, including through innovative financing mechanisms, such as taxation of tobacco, alcohol and other unhealthy products?

How to establish a high-level national multisectoral commission, agency or mechanism to oversee engagement, policy coherence and accountability of sectors beyond health?

How to (by 2015) establish a multisectoral strategy/plan?

Key elements of a national multisectoral NCD action plan

Guidance provided through WHO tools

WHO tools to prevent and control noncommunicable diseases

WHO/SEARO/V. Gupta-Smith

March 2014 -- This section provides links to WHO tools for the prevention and control of noncommunicable diseases (NCDs) - from setting national targets and developing national multisectoral policies and plans to measuring results. The list of tools is not exhaustive but is intended to provide information and guidance on effectiveness and cost-effectiveness of evidence-based interventions, taking into account the "Global NCD action plan 2013-2020".

- About 9 voluntary global targets
- About 6 objectives of the NCD action plan
- About 25 indicators of the Global Monitoring Framework

Tools by targets

Target 1: Reduce mortality from NCDs

Target 2: Reduce harmful use of alcohol

Target 3: Reduce prevalence of physical inactivity

Target 4: Reduce salt intake

Target 5: Reduce tobacco use

Target 6: Reduce prevalence of raised blood pressure

Target 7: Halt the rise in diabetes and obesity

Tools by indicators

Premature mortality from NCDs

Indicator 1: Chronic diseases

Indicator 2: Cancer

Harmful use of alcohol

Indicator 3: Alcohol consumption

Indicator 4: Prevalence of heavy drinking

Indicator 5: Morbidity and mortality

Physical inactivity

Adolescents

Persons aged 18+

Sodium intake

Intake of salt

Indicator 9: Adolescents

Indicator 10: Persons aged 18+ years

Tools for developing, implementing and monitoring the National Multisectoral Action Plan for NCD Prevention and Control

National noncommunicable diseases policies

National NCD policies, strategies and plans of action

WHO/FAHO D Spitz

In response to the commitment expressed through the 2011 Political Declaration on NCDs, several governments around the world have developed national policies, strategies and/or plans of action to prevent and control NCDs.

Such instruments serve to guide efforts to address the growing threat of cardiovascular diseases, cancer, diabetes, and chronic respiratory diseases, among other NCDs. Those which are multisectoral and reflect national targets offer a framework for addressing NCDs and their risk factors through a public health approach.

While these instruments vary in nature and scope, WHO recommends that they be concrete and contain objectives, priorities, targets, timetables, budgets and an integrated monitoring framework in line with related global efforts. WHO also advocates that they be developed in a participatory manner, involving both government and nongovernment actors alike, and that responsibility be assigned for all stages of their implementation.

This web page offers a set of tools for developing, implementing and monitoring national multisectoral plans. NCD policies, strategies and plans from select countries are also provided.

How to integrate NCDs into national policies and development plans?

Key components to implement health action across sectors

In May 2015, the World Health Assembly endorsed a "Country Framework for Action across Sectors for Health and Health Equity", Framework is available at , http://apps.who.int/gb/ebwha/pdf_files/WHA68/A68_17-en.pdf

How to integrate NCDs into national policies and development plans?

Good health requires policies that actively support health

- ✓ Systematically taking into account the health and health/system implications of decisions
- ✓ Seeking synergies, and avoiding harmful health impacts to improve population health and health equity

PURPOSE OF TRAINING MANUAL

Training resource to increase understanding of health in all policies among health and other professionals

It requires different sectors working together, for example:

Acronyms	6
1. Executive Summary	7
2. Introduction and Context	8
• Purpose of this Guidance Note	8
• What are NCDs and their risk factors?	8
• Rationale for integrating NCDs into UNDAFs	9
• A whole-of-government and whole-of-society approach	11
• NCDs: a development priority for Member States and the United Nations	12
3. NCDs in UNDAFs – current status	13
4. Integrating NCDs into the UNDAF	15
• The roadmap	15
• Country analysis	17
• Strategic planning and the development of a results matrix	21
• Monitoring and evaluation	25
Case studies	26
Annexes	29
Annex 1. NCD Global Monitoring Framework	29
Annex 2. Joint letters to UNCTs on NCDs from the Administrator of UNDP and the Director-General, WHO	31
Annex 3. NCDs – major events between 2000 and 2014	35
Annex 4. Division of tasks and responsibilities for the UN Inter-Agency Task Force on the Prevention and Control of NCDs	38
Annex 5. Multisectoral policy options to reduce NCDs in low- and middle-income countries	42
Annex 6. Reducing the harmful use of alcohol	46
Annex 7. Improving diet – reducing the overconsumption of salt	48
Annex 8. UN programming principles and intersections with NCDs	51
Annex 9. Conflict of interests	54

How to increase budgetary allocations for NCDs prevention and control, including through innovative financing mechanisms, such as taxation of tobacco, alcohol and other unhealthy products?

- **Domestic public finance:**
 - Potential to increase tobacco and alcohol excise taxes exist in almost all countries
- **International public finance:**
 - Multi-Donor Trust Funds and Rapid Financing Facilities
 - Tobacco Solidarity Contribution
 - Official Development Assistance
 - Philanthropic foundations
- **Private sector investment:**
 - PPPs while avoiding conflict of interest
- **International trade:**
 - Engine of economic growth and development
 - WTO/TRIP to prove access to affordable essential medicines and vaccines for all
 - Strengthening safeguards to ensure the right to regulate in areas critical for health
- **Ease debt repayment obligations**
 - As a result of severe economic shocks in the context of NCDs?
- **Systematic issues:**

Recommendations for governments emerging from the two GCM Working Groups

Paragraph 44 (Private sector)

1. Establish sound national statutory and regulatory frameworks to enable more concrete contributions from the private sector
2. Establish a multi-stakeholder platform for engagement on, and implementation, monitoring and evaluation of NCD responses
3. Develop a robust accountability mechanism to review and ensure effective delivery of the commitments and contributions from the private sector
4. Better align private sector incentives with national public health goals
5. Protect national NCD policies from conflict of interests

Paragraph 45.d (Financing)

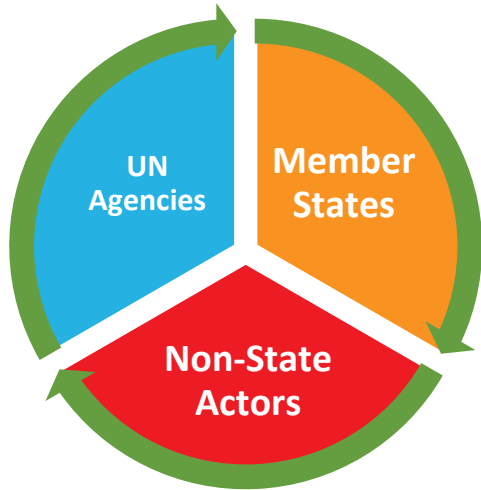

1. Mobilize and allocate resources for national NCD responses
2. Expand domestic public resources to implement national NCD responses
3. Seek catalytic ODA investments to complement domestic resources
4. Promote financing from the private sector
5. Achieve policy coherence across sectors

How to establish a high-level national multisectoral commission, agency or mechanism to oversee engagement, policy coherence and accountability of sectors beyond health?

"We, Ministers of States and Government, commit to consider establishing, as appropriate to the respective national context, a national multisectoral mechanism, such as a high-level commission, agency or task force for engagement, policy coherence and mutual accountability of different spheres of policymaking that have a bearing on NCDs, in order to implement health-in-all-policies and whole-of government and whole-of-society approaches, and to monitor and act on the determinants of NCDs, including social and environmental determinants"

Resolution A/RES68/300, paragraph 30(a)(i)(vi)

WHO Global Coordination Mechanism on NCDs: How it will help your work

Functions:

- Advocating and raising awareness
- Disseminating knowledge and information
- Encouraging innovation and identifying barriers
- Advancing multisectoral action
- Advocating for mobilization of resources
- Exchange of information and best practices
- Recommendations on how to engage with the private sector
- Recommendations on how to provide financing for NCDs
- Dialogues on NCDs, poverty and development and North-South and South-South cooperation

Key Ongoing Activities

- **Working Groups**
 - Engagement of the Private Sector
 - Financing for NCDs
- **Dialogue on international cooperation,**
- **Webinars**
- **Communities of Practice**
- **Web-based Platform**
- **UN Interagency Task Force on NCDs**

Upcoming – Key Activities in 2016-17

- **Working Groups**
 - promote the **inclusion of the prevention and control of NCDs** within responses to HIV/AIDS and programmes for sexual and reproductive health and maternal and child health (...);
 - align **international cooperation on NCDs with national plans** on NCDs in order to strengthen aid effectiveness and development impact of external resources for NCDs;
 - promote **health education and health literacy** for NCDs, with a particular focus on populations with low health awareness and/or literacy.
- **Global Communications Campaign**
- **General Meeting of the GCM in 2017**

Upcoming – Key Activities in 2016-17

- **Dialogues**

- In **2016** on the role of **non-State actors** in supporting Member States' NCD efforts

- In **2017** on how **governments can promote policy coherence** between different spheres of policy-making that have a bearing on NCDs

- **12 studies (2 per WHO region) on the national public health burden due to NCDs** in developing countries, linkages to poverty/socio-economic development, the cost of action versus inaction

Core business of the UN Task Force on NCDs

- Field joint country programming missions in a (small) selected number of fast-track countries
- Promote the establishment of resident UN Thematic Groups on NCDs by UN Country Teams to integrate NCDs into UNDAFs and coordinate the provision of technical assistance to national NCD responses
- Develop and implement global joint programmes on the use of mobile phones for NCDs (mhealth), cancer, and mobilizing sectors beyond health for NCDs.

How to engage?

- **New Working Groups – call for nominations of members**
 - Member States nominate experts – a variety of fields beyond the health sector need to be covered due to the nature of NCD prevention and control
- **Participate in Dialogues, Webinars, communities of practice**
- **Express demand for and/or supply of NCD solutions/technical assistance:**
 - **The Integrated Support Team as part of the New NCD business model**
 - coherent with the SDG-related priority on country implementation and integration
 - one WHO integrated support (HQ, regional and country levels)
 - tailored for each country, based on their priorities
 - initial set of 12 selected countries (two for each region) where the progress on reaching the targets of the WHO Global Action Plan on NCDs will serve as a global model in the short-term
- **Share and disseminate country experiences and knowledge, e.g. on**
 - how to engage with the private sector;
 - how to work across sectors;
 - how to integrate NCD responses in other development efforts; and
 - how to leverage international cooperation for NCD response.

15-17 February 2016

**First WHO Global Meeting of National NCD Programme Directors and Managers
(Geneva, 15-17 February 2016)**

<http://www.who.int/nmh/events/2016/ncd-focal-points/en/>

**How to fulfil national NCD
commitments in 2015 and 2016?**

In preparation for the third UN High Level
Meeting on NCDs in 2018

It is expected that the first Global Meeting of national NCD Programme Directors and Managers will result in a **better understanding of the government's primary role and responsibility in responding to the challenge of NCDs** in the next two years, in preparation for the third UN High-level Meeting on NCDs.

Time to scale up action

Third High-level Meeting on NCDs

United Nations
**General
Assembly**

2018

Thank you
mikkelsenb@who.int

Road map of commitments included in the 2011 UN Political Declaration on NCDs

	Governance: 10 most important national commitments	2011 Political Declaration	2014 Outcome Document
1	Set national targets	45(i)	30
2	Develop national multisectoral policies and plans	63	30(a)(i)
3	Raise awareness about the national NCD burden and links to poverty		30(a)(iv)
4	Integrate NCDs into health planning and national development plans	45(a)	30(a)(v)
5	Establish a national multisectoral mechanism		30 (a) (vi)
6	Enhance capacity, mechanisms and mandates or relevant authorities		30(a) (vii)
7	Strengthen the capacity of Ministries of Health		30 (a)(viii)
8	Explore the provision of resources	45(d)	32
9	Exchange best practices	30(g)(H)	
10	Align international cooperation on NCDs with national plans		30(a)(ix)

Road map of commitments included in the 2011 UN Political Declaration on NCDs

	Risk factors: 10 most important national commitments	2011 Political Declaration	2014 Outcome Document
1	Reduce risk factors for NCDs through the implementation of interventions and policy options to create health promoting environments, building on guidance set out in Appendix 3 of the WHO Global NCD Action Plan 2013-2020	43	30(b)
2	Accelerate implementation by States parties of the WHO FCTC	43(c)	
3	Advance implementation of the WHO Global Strategy on Diet, Physical Activity and Health	43(d)	
4	Implement the WHO Global Strategy to Reduce the Harmful Use of Alcohol	43(e)	
5	Implement the WH Set of Recommendations on the Marketing of Foods and Non-alcoholic Beverages to Children	43(f)	
6	Implement interventions to reduce salt, sugar and saturated fats and eliminate industrially produced trans-fats in foods	43(g)	
7	Encourage policies that support the production of, and facilitate access to, foods that contribute to a healthy diet	43(h)	
8	Promote, protect and support breastfeeding	43(i)	
9	Promote increased access to vaccinations to prevention infections associated with cancers	43 (j)	
10	Promote increased access to cancer screening	43(k)	

Road map of commitments included in the 2011 UN Political Declaration on NCDs

	Health systems: 6 most important national commitments	2011 Political Declaration	2014 Outcome Document
1	Strengthen health systems to address the prevention and control of NCDs through people-centred primary health care and universal health coverage, building on guidance set out in appendix 3 to the WHO Global NCD Action Plan 2013-2020	45	30(c)
2	Promote the production, training and retention of health workers	45(j)	
3	Recognize the importance of universal health coverage in national health systems	45(n)	
4	Improve accessibility to essential medicines for NCDs	45(l)	
5	Integrate NCDs into national HIV/AIDS responses	27	30(d)
6	Integrate NCDs into national reproductive health and maternal and child health responses	45(o)	30(e)

Road map of commitments included in the 2011 UN Political Declaration on NCDs

	Surveillance, monitoring and evaluation: 5 most important national commitments	2011 Political Declaration	2014 Outcome Document
1	Monitor trends and determinants of NCDs and evaluate progress in their prevention and control		30(g)
2	Assess progress towards attaining the global NCD targets and report on the results using the 25 outcome indicators		30(g)(i)
3	Contribute information on trends to NCDs to WHO		30(g)(ii)
4	Develop country-level surveillance and monitoring systems	60	30(g)(iii)
5	Strengthen information systems for health planning and management	45(k)
